WILSON ANTONY THANG

唐昌偉

B.S. Electrical Engineering & Computer Science Candidate, National Tsing Hua University

Hsinchu, Taiwan | | antonywilson229@gmail.com

PROFILE

Third-year EECS undergraduate at National Tsing Hua University (NTHU) with a cumulative GPA of 4.05/4.30. International student from Indonesia with project experience spanning agentic AI, mobile applications, embedded systems, and C/C++ software development. Seeking exposure to internship, research, and engineering opportunities in Taiwan's technology sector.

EDUCATION

National Tsing Hua University (NTHU) Hsinchu, Taiwan | 2024 - Present

B.S. in Electrical Engineering and Computer Science | Expected Graduation: 2028

GPA: 4.05 / 4.30 Honors: Outstanding Student Award (Academic Year 114) | NTHU Scholarship Recipient

SELECTED TECHNICAL PROJECTS

Goal Digger - Agentic AI Goal Management Application Team Project

Flutter, Dart, Agentic AI

- Developed an agentic AI productivity application that transforms high-level user goals into structured activities and actionable schedules.
- Integrated goal planning, task organization, calendar workflows, focus tools, adaptive scheduling, and an interactive virtual companion system.
- Contributed to application architecture, UI/UX implementation, feature integration, debugging, and final product demonstration.

8051 Multithreading & Synchronization Operating Systems Project

C, SDCC, 8051

- Implemented lightweight threading functions including thread creation, yielding, termination, context switching, and timer-driven scheduling in an 8051 environment.
- Built semaphore-based synchronization and producer-consumer coordination while working with register preservation and constrained embedded memory.

Invasion Requiem - 2D Pixel RPG Lead Developer | Team of 3

C++

- Led a three-member team in developing a 2D RPG from scratch, integrating six gameplay mechanics and managing application state and feature integration.
- Achieved the highest project score among 30 course teams.

Budgeting & Savings Application Developer | Client Project

Flutter, Dart

- Developed a mobile budgeting application from client requirements through UI/UX implementation, including financial constraint logic and a savings-lock feature.

TECHNICAL SKILLS

Programming	C++, C, Python, Dart
Frameworks / Platforms	Flutter, Firebase
Tools / Environments	Git, GitHub, Visual Studio Code, Visual Studio, SDCC / 8051
Relevant Coursework	Data Structures, Operating Systems, Computer Networks, Computer Architecture, Logic Design, Python Programming

ADDITIONAL INFORMATION

Languages	Indonesian (Native) | English (Fluent; IELTS 7.5) | Mandarin Chinese (Intermediate; NTHU coursework)
